
Stop Bath

BERGGER Berstop

1. Identification

Product identifier : BERGGER Berstop
Application : Stop Bath
Supplier : BERGGER SAS, Les plaines de Rejatas, 87260 Vicq-sur-Breuilh
Tél. : 09 66 89 50 26
Emergency (France) : +33 (0)1 45 42 59 59

2. Hazards identification

Classification according to Regulation (EC) No 1272/2008

Eye Dam2A// H319 // Causes serious eye irritation.

Hazard pictograms

Signal word

Attention

Hazard-determining components of labelling

Acid Citric

Hazard statements

H319 // Causes serious eye irritation.

Precautionary statements

P102 Keep out of reach of children.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P305+P351+P338 **If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

3. Composition/information on ingredients

Mixtures

Mixture of the substances listed below with harmless additions.

Dangerous components		
CAS: 77-92-9	Acid Citric H319 - Eye Dam 2.	44%

4. First aid measures

General information

No special measures required

After inhalation Move the exposed person to fresh air at once. Provide rest, warmth and fresh air. Get medical attention if any discomfort continues.

After skin contact Remove affected person from source of contamination. Remove contaminated clothing. Wash skin thoroughly with soap and water. Contact physician if irritation continues.

After eye contact Remove victim immediately from source of exposure. Make sure to remove any contact lenses from the eyes before rinsing. Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes. Contact physician if irritation persists.

After swallowing NEVER MAKE AN UNCONSCIOUS PERSON VOMIT OR DRINK FLUIDS! Remove victim immediately from source of exposure. Rinse mouth thoroughly. Drink a few glasses of water or milk. Provide rest, warmth and fresh air. Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs. Get medical attention.

5. Firefighting measures

Suitable extinguishing agents

CO₂, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam.

For safety reasons unsuitable extinguishing agents Water with a full water jet.

Special hazards arising from the substance or mixture Can be released in case of fire

No further relevant information available

Advice for firefighters

No special measures required

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation

Environmental precautions:

Do not allow to enter sewers/ surface or ground water.

Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, saw-dust).

Reference to other sections

No dangerous substances are released.

7. Handling and storage

Precautions for safe handling

No special measures required.

Information about protection against explosions and fires: No special measures required.

Conditions for safe storage, including any incompatibilities

Storage class Chemical storage

Store away from foodstuffs.

Store away from oxidizing agents.

Specific end use(s) No further relevant information available.

8. Exposure controls/personal protection

Control parameters

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Exposure controls

General protective and hygienic measures

The usual precautionary measures should be adhered to general rules for handling chemicals. Keep away from foodstuffs, beverages and food. Take off immediately all contaminated clothing. Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin. Do not eat, drink or smoke while working.

Personal protective equipment

Breathing equipment: Not required.

Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Only use chemical-protective gloves with CE-labelling of category III.

Penetration time of glove material

The determined penetration times according to EN 374 part III are not performed under practical conditions. Therefore a maximum wearing time, which corresponds to 50% of the penetration time, is recommended.

Eye protection: Goggles recommended during refilling

Body protection: Protective work clothing.

9. Physical and chemical properties

Information on basic physical and chemical properties	
<i>Appearance</i>	
Form	Fluid
Colour	Clear colorless
Odour	Not characteristic
pH Value at 25°C	2,2
Boiling point / Boiling Range	Not determined
Ignition temperature	Not determined
Self-inflammability	1011 °C
Danger of explosion	Product is not explosive.
Vapour pressure at 20°C	-
Density at 20°C	-
<i>Solubility in / Miscibility with</i>	
Water	fully miscible
<i>Solvent content</i>	
organic solvents	0.0%
water	56 %
<i>Other information</i>	No further relevant information available.

10. Stability and reactivity

Reactivity

Chemical stability

Stable under the prescribed storage conditions. No particular stability concerns.

Possibility of hazardous reactions Reacts with alkali, amines and strong acids

Conditions to avoid No further relevant information available

Materials to avoid No further relevant information available

Hazardous decomposition products: Irritant gases / vapor

11. Toxicological information

Information on toxicological effects

This chemical formulation has not been tested for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

Acute toxicity LD/LC50 values that are relevant for classification:		
Acid citric		
Oral	LD50	>7000 mg/kg (rat)

Subacute to chronic toxicity:

No sensitizing effects known.

Additional toxicological information:

When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.

The substance is not subject to classification according to the latest version of the EU lists.

12. Ecological informations

Toxicity

Acid citric

LC50/48 h 440 mg/l (Leuciscus idus melanotus)

Persistence and degradability Not determined

Bioaccumulative potential Not determined

Behaviour in environmental systems: Not determined

Mobility in soil No further relevant information available.

Ecotoxic effects: No further relevant information available.

Other adverse effects No further relevant information available.

13. Disposal considerations

Waste treatment methods

Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

European waste catalogue

09 01 01 - wastes not otherwise specified

Uncleaned packagings

Recommendation:

Disposal must be made according to official regulations.

Recommended cleaning agent: Water, if necessary with cleaning agent.

14. Transport information

Not applicable

15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

A Chemical Safety Assessment has not been carried out.

16. Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Department issuing data specification sheet:

BERGGER SAS
Tel.: +33 (0)9 66 89 50 26
Les Plaines de Rejatas
87260 Vicq sur Breuilh
FRANCE
e-mail: info@bergger.com
www.bergger.com

Abbreviations and acronyms:

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
IMDG: International Maritime Code for Dangerous Goods
IATA: International Air Transport Association
GHS: Globally Harmonised System of Classification and Labelling of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)
LC50: Lethal concentration, 50 percent
LD50: Lethal dose, 50 percent
